

THIS IS WHAT'S IMPORTANT...

Participation:

- If one team has 7 players and the other has 5 players then simply even out the teams to make 6-a-side.
- If one or both teams has an extra player then players rotate on and off at the end of an over as shown in the diagram.
- Every effort should be made to get as many of the kids involved at one time as possible.
- Winning and losing is not important in Super-Sixes so it does not matter which team they play for as long as they are playing cricket.

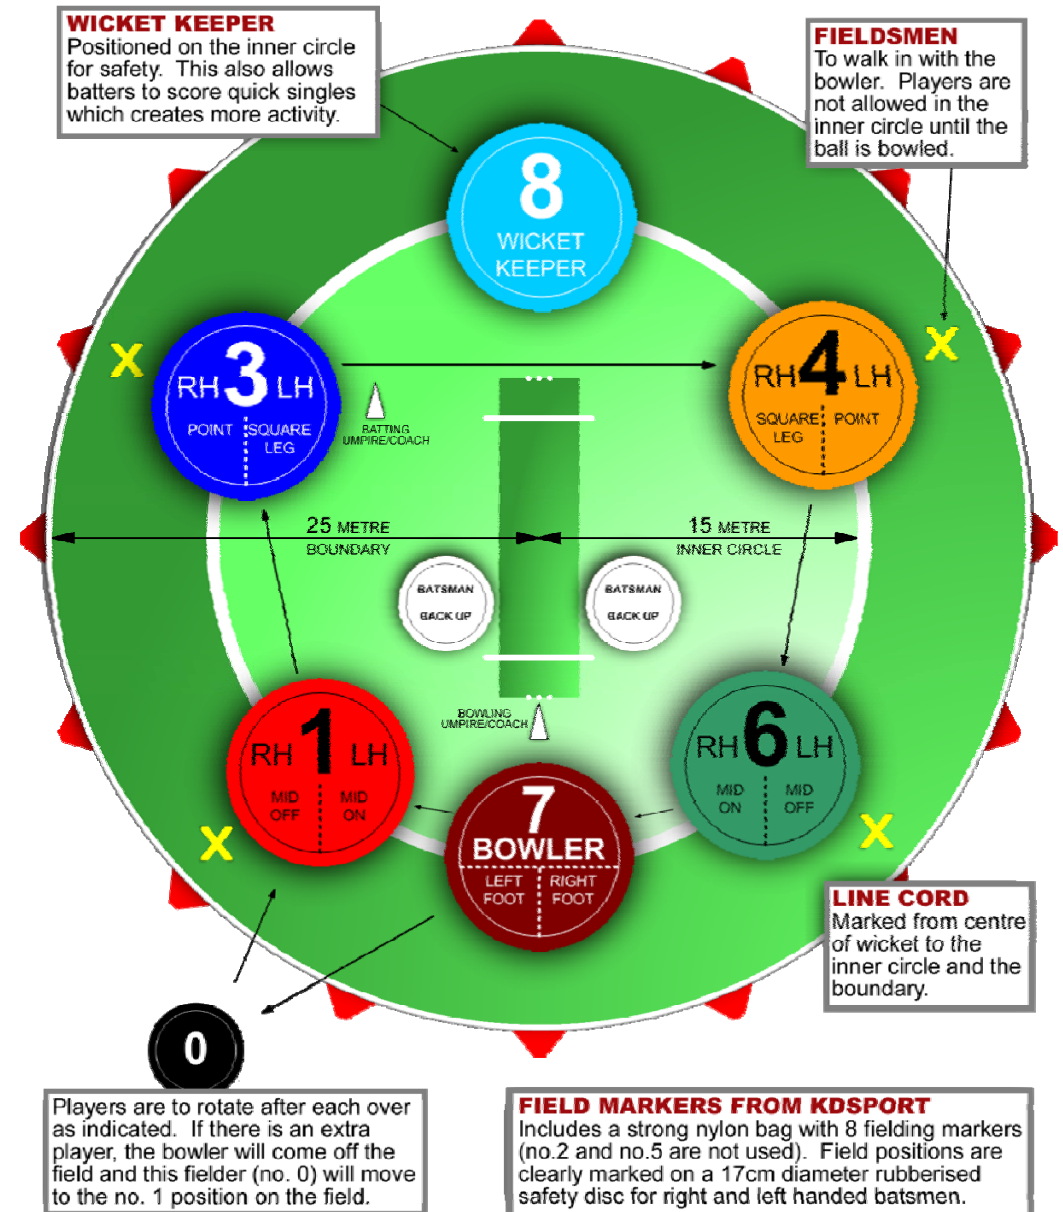

Enjoyment:

- It's all about getting the kids enjoying themselves and having fun.
